DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 3, 7, 8, 9, 10, 12, 14, 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Elpers et al. (U.S. Patent 5,519,719).

Elpers discloses a generating a transmit repeating pattern in a transmit circuit, transmitting the transmit repeating pattern to a receive circuit, generating repeating pattern in the receiving circuit, comparing transmit repeating pattern to the receive repeating pattern to obtain a comparison, transmit over a single conductor reference to ground voltage, differential signal over two conductors, us of a shift register (counter), work on a test mode (col. 1-2, lines 4-29, col. 3, lines 23-47, fig. 3).

Claim objections

2. Claims 4-6, 11, 13, and 16-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all the limitation of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance: prior art fail to teach the use of linear feedback shift register in the repeating pattern generator, the parameter consist of a group of crosstalk cancellation coefficient and self-equalization coefficient, determining boundary value of the receiver characteristic, adjust the receiver characteristic of the receiver circuit. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
